ANANDHU BINCE

PYTHON FULL STACK DEVELOPER

Idukki, Kerala, India | anandhubince27@gmail.com | +91 85904 68492 | LinkedIn: linkedin.com/in/anandhubince

SUMMARY

Motivated BCA graduate with a strong interest in Python Full Stack Development and software development. Currently undergoing practical training in Python and full stack technologies, with hands-on exposure to Python, HTML, CSS, JavaScript, SQL, MySQL, and web application development. Experienced in developing academic projects involving public services, healthcare information, recipe generation, databases, and user-focused applications. Seeking an entry-level opportunity as a Python Developer or Python Full Stack Developer to apply my technical skills and grow through real-world software development experience.

TECHNICAL SKILLS

Programming: Python, C, C++, Java
Web Technologies: HTML, CSS, JavaScript, Bootstrap
Database: SQL, MySQL
Framework: Flask
Tools: Git, GitHub
Operating Systems: Windows, Linux (Basic)

PROFESSIONAL SKILL

Problem Solving
Communication
Team Collaboration
Time Management
Documentation & Reporting

PROJECTS

Major Project **Dec 2025 – Feb 2026**
Hyper-Local Public Service and Health Connector

- Developed a location-based application to help users find nearby public services and healthcare facilities.
- Implemented features for accessing verified public service and health-related information.
- Worked with **Python, Flask, HTML, CSS, Bootstrap, and MySQL**.
- Integrated location-based services and APIs to improve access to nearby facilities.
- Implemented features such as translation and voice-based access.

Minor Project **Jul 2025 – Nov 2025**
Chef-AI

- Developed a recipe application that generates recipes based on user-provided ingredients and preferences.
- Implemented user registration, login, recipe generation, saving, and profile features.
- Worked with **PHP, JavaScript, HTML, CSS, and MySQL**.
- Designed database-driven functionality for storing users and recipes.

EXPERIENCE

Python Full Stack Development Intern

SMEC TECHNOLOGIES – Kaloor, Ernakulam, Kerala
July 2026 – Present | On-site

- Currently undergoing practical training in **Python Full Stack Development**, strengthening programming and web development fundamentals.
- Developing Python programs and completing coding exercises to improve **problem-solving and programming logic**.
- Gaining hands-on exposure to **HTML, CSS, JavaScript, SQL, and MySQL** through practical development tasks.
- Practicing **database operations, SQL queries, and MySQL** as part of application development exercises.
- Building an understanding of **web application structure, frontend development, backend concepts, and database integration**.
- Applying programming concepts through practical exercises and improving **debugging and logical problem-solving skills**.
- Gaining exposure to professional software development practices, documentation, and collaborative work environments.

EDUCATION

Bachelor of Computer Applications (BCA) **Graduated: 2026**
Jawaharlal Nehru Institute of Arts and Science, Balagram, Idukki
Mahatma Gandhi University

CERTIFICATIONS

- **Programming with Python 3.X** **Sep 2026**
- **Basics of Python:** UniAthena in partnership with Cambridge International Qualifications, UK **Sep 2026**

ACTIVITIES

- **National Seminar:** From Data to Intelligence: Advances in Analytics, AI & Machine Learning
- **Learner's Fest:** Student Ambassadors Meetup
