ANANDHU BINCE

PYTHON FULL STACK DEVELOPER | FRESHER

Kochi, Kerala, India | anandhubince27@gmail.com | +91 85904 68492 | linkedin.com/in/anandhubince | github.com/anandhubince

SUMMARY

BCA graduate (2026) and Python Full Stack Development intern with foundational knowledge of Python, Object-Oriented Programming (OOP), Data Structures, SQL/MySQL, Flask, Django, and frontend technologies (HTML, CSS, JavaScript). Built a location-based public service and health finder using Python, Flask and MySQL. Familiar with Git, GitHub, database operations, and problem-solving. Seeking an entry-level Python Developer or Full Stack Developer role to apply my programming skills and grow through practical software development. Open to relocating anywhere in India.

TECHNICAL SKILLS

Programming: Python, OOP, Data Structures & Algorithms, C, C++, Java
Web Technologies: HTML, CSS, JavaScript, Bootstrap
Database: SQL, MySQL
Framework: Flask, Django
Tools: Git, GitHub
Operating Systems: Windows, Linux (Basic)

PROFESSIONAL SKILLS

Problem Solving
Communication
Teamwork
Adaptability

PROJECTS

Hyper-Local Public Service and Health Connector (Major Project) **Dec 2025 – Feb 2026**
Python, Flask, HTML, CSS, Bootstrap, MySQL

- Developed a location-based application to help users find nearby public services and healthcare facilities.
- Provided verified public service and health information, with location services and APIs to improve access to nearby facilities.
- Implemented translation and voice-based access features.
- Used MySQL for data storage and Git/GitHub for version control.

FindIt – Lost & Found Web App (Personal Project) **Oct 2026 – Present**
HTML, CSS, JavaScript (Django backend in progress)

- Built a responsive 7-page web app for posting, searching and browsing lost and found items, with category filters and a details popup.
- Implemented form validation and image upload with preview and automatic resizing; saved data using browser LocalStorage.
- Deployed on GitHub Pages and tested on phones, tablets and laptops.
- Building a Django backend (models, views, templates, ModelForms and admin panel) to store reports in a database.

Chef-AI (Minor Project) **Jul 2025 – Nov 2025**
PHP, JavaScript, HTML, CSS, MySQL

- Developed a recipe application that generates recipes based on user-provided ingredients and preferences.
- Implemented user registration, login, recipe saving and profile features, with a MySQL database for users and recipes.

EXPERIENCE

Python Full Stack Development Intern **July 2026 – Present | On-site**
SMEC Technologies, Kaloor, Ernakulam, Kerala

- Wrote Python programs applying OOP concepts and logic-building exercises.
- Wrote SQL queries and performed MySQL database operations for application development tasks.
- Worked on frontend, backend and database integration in a full-stack workflow, following debugging and documentation practices.

EDUCATION

Bachelor of Computer Applications (BCA) **Graduated: 2026**
Jawaharlal Nehru Institute of Arts and Science, Balagram, Idukki | Mahatma Gandhi University

CERTIFICATIONS

- Programming with Python 3.X — Sep 2026
- Basics of Python: UniAthena in partnership with Cambridge International Qualifications, UK — Sep 2026

ACTIVITIES

National Seminar: From Data to Intelligence: Advances in Analytics, AI & Machine Learning; Learner's Fest: Student Ambassadors Meetup
